

How To Refold the Travel Pillow

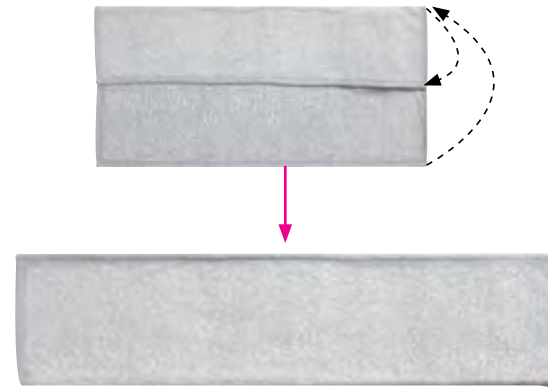

vera bradley

1

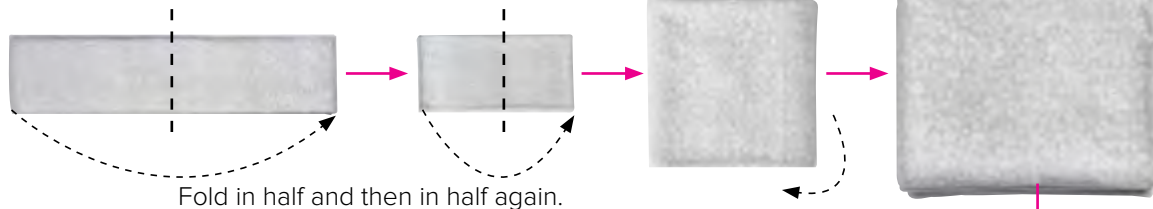

Lay blanket out on flat surface with pillow pocket face down and to the right.

2

Fold lengthwise into equal thirds (aligned with pillow pocket seams).

3

Fold in half and then in half again.

Rotate 90° clockwise so the edges of the blanket are facing towards you

4

From underneath, grab the pocket on the under side and flip the pocket inside out - up and over the top of the blanket.

5

Then reach underneath from the side closest to you and flip the other pocket inside out. (Make sure you grab the pocket and the trolley sleeve)

6

Make sure all corners are pushed out equally to form a rectangle and you are finished!
